Dear Sir,

Ingo Mueller

I have personally known Ingo Mueller for more than 8 years. This Company of which I am a director had co-invested with him with respect to a copper project in South America.

On a personal level, before I became a director of this Company, I worked in private practice as a lawyer and represented Mr Mueller and his businesses on numerous occasions including occasions where his businesses sought or were being restructured to seek funding on the UK AIM capital market or in mainland China.

I find Mr Mueller professional, responsible and effective in his dealings and I continue to have business dealings with him.

This letter is provided without liability on the writer and the Company.

Yours truly,

Anthony WY Chan

Director
